The City of Weston is in the midst of construction on the Weston Drainage Improvement Project in specific areas of the City. The project targets areas in Weston that are in need of drainage improvements, which will reduce the ponding of rain water run-off along roadways. Additionally, culvert pipes connecting lakes together under specific roadway locations will be installed or upgraded to a larger size thereby improving the entire storm water management system for the City.

The Project includes the construction of culverts, drainage structures, pipes, asphalt pavement restoration, roadside swales, lake/canal slopes, and landscape. An informational project open house was held on February 26<sup>th</sup> after noticing all impacted addresses.

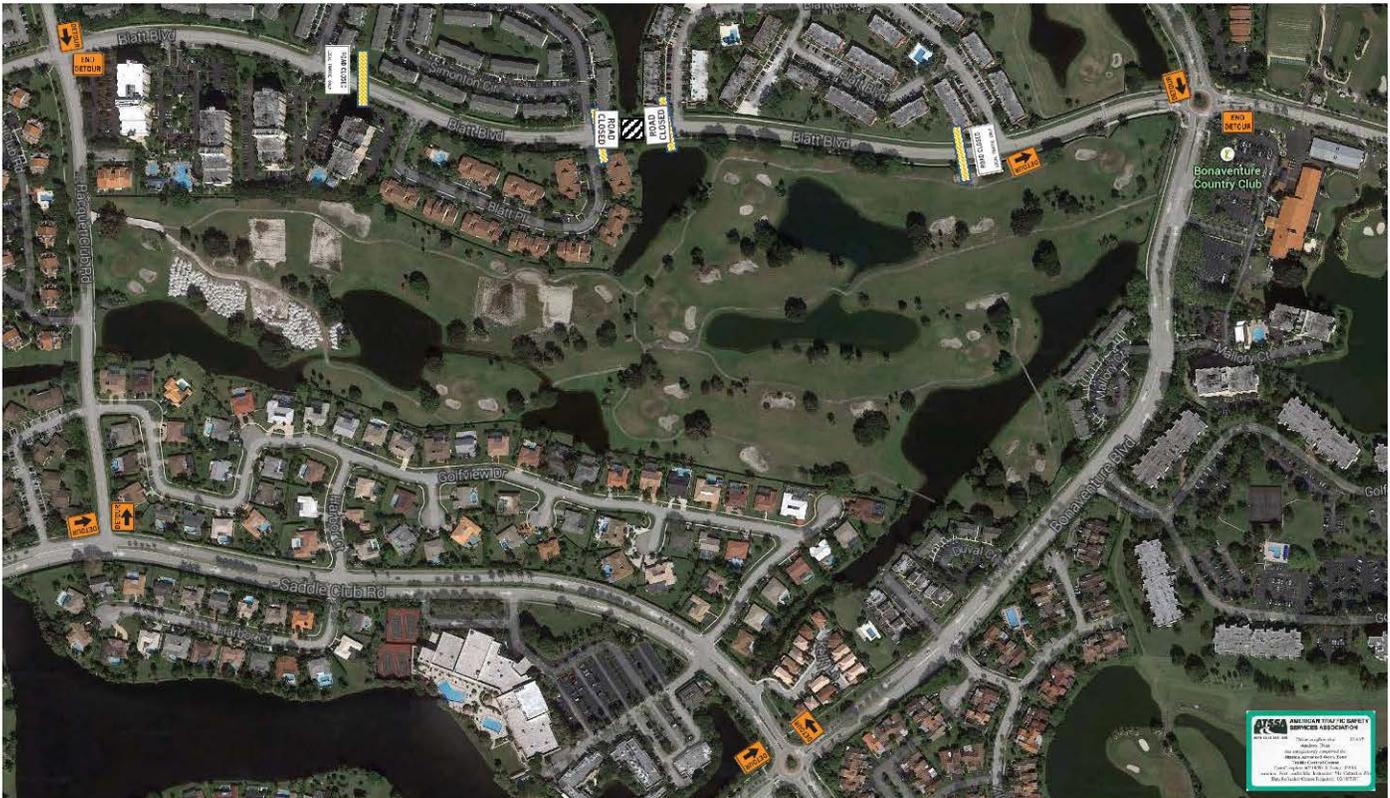

Overall project locations include portions of Lakeview Drive, Blatt Boulevard, Redwood Way, SW 5th Way, Ranch Road, and Bonaventure Boulevard.

For maps of all the impacted areas please visit the homepage of the City website at [www.westonfl.org](http://www.westonfl.org)
